

Headington Action
Working together for Headington

Light in the darkness

Communities working together to create hope

We need the warmth of light and the brightness of hope in these dark days

Headington Action supports the City Council's Light Festival on 20-22

November. If you can, we urge **YOU** to bring light to your neighbours by

- lighting your windows and gardens
- creating a socially distanced street light event on November 20 or 21
- keeping your lights twinkling through December (and longer if you wish)

Ideas for how to be creative with your lights can be found at

<https://www.oxlightfest.com>

Lights can be bought on-line but don't forget that your local shops stock them too!

See also the above website for details of the festival's planned mobile lights installation that could visit your street.

To support the City's light festival **Headington Action** will switch on lights in the trees in the shopping area on November 20
